

Eco Through Floor Lift

The most environmentally friendly through-floor lift on the market

*Lifts for Houses
Any floor with Ease*

Our Eco Through Floor Lift with traction drive delivers on every level

- 255kg capacity *†
- up to 4.2m travel *
- access between 2 floors
- single person carriage
- wheelchair or seated
- internal only
- domestic access

Clean, environmentally friendly, and requiring 56% less power to run, the traction drive Eco Through Floor Lift delivers on every level.

Using an electric motor to transport the wheelchair accessible car between floors within a domestic setting, our Eco Through Floor Lift has significant features and benefits compared to a typical hydraulic drive system which requires a pump and ram to move the lift.

The elegant design fits unobtrusively into the home with the lift being 'called' only when required, leaving the room-in-use free with full floor access.

With many great features as standard, the Eco Through Floor Lift also boasts exceptional safety standards, exceeding requirements in many areas, and is fully compliant with BS5900 2012.

12 Months Warranty

Our Eco Through Floor Lift comes with 12 months Parts and Labour as standard. We also offer Extended Warranties up to 5 years covering you for all service and maintenance costs.

**features
unique to
our lifts**

raising expectations with the
most advanced technology

Benefits of Traction Drive

Powered electronically, our traction drive system is clean and environmentally friendly; requiring **56% less power** to run, it helps to reduce our carbon footprint.

And with no hydraulics it comes with the added reassurance of **no oil leaks** and **no creeping** in colder winter months.

Traction drive is also **19% quieter** than a hydraulic system and offers **higher travel** distance of up to 4.2 metres compared to the 3.6 metres maximum height of a hydraulic lift.

Why choose our lifts?

We have been specialising in lift access since 1983 and really understand our customers' needs and concerns.

When mobility is a problem it raises many important questions and practical issues that our team are expert at solving. And our highly trained support team are here 24 hours a day to respond to your needs, wherever you are located.

As leaders in state-of-the-art lift technology, our versatile range of access solutions are designed to be elegant and fit easily into your life, free up space in your home and provide the ultimate in comfort and safety.

“ The whole process was pain-free and the end product is fabulous. We're amazed at how unobtrusive the lift is. It is making a huge difference to our day to day lives. ”
